

# GRAPHIC SPIRIT

## Gold Paint Effect Photoshop TOOLKIT

1. Install all components:

'Gold Paint Actions.atn' (Window > Actions > Load actions)

'Paint Brushes.abr' (Window > Brush Presets > Load Brushes)

'Gold Paint Styles' (Window > Styles > Load styles)

If you want to create a design for the web or just for a screen, for example sending via email, then use 'Gold Paint Styles 72 dpi.asl'

For small-size printing use 'Gold Paint Styles 300 dpi.asl'

For large sizes of printing design use 'Gold Paint Styles 300 dpi x2.asl'

2. Open or create your graphic & text in Photoshop.

(Document resolution 72 dpi or 300 dpi).

You can use any backgrounds from 'Backgrounds' folder.

3. Open Window > Styles and apply any style to graphic or text layer.

4. Apply 'Add Paint Texture' action to create a brush relief, along the text borders or graphics on a new layer.

5. In order to create a brush stroke with a realistic texture, place some stroke image from the 'PNG Extras' folder, then apply style number 6 to it, then start the 'Arc' or 'Flag' action.

6. You can take as a basis any of the pre-made templates from the 'Templates' folder. You can download the necessary fonts by selecting them by their type or title on the second page of this manual. Just click, download and install the desired font.

7. You can change the overlay color in styles.

8. Adjust texture scale of texture directly in the layer effects.

**Important!** Apply only 25% 50% 75% 100% 200% for best results.

9. Thank you for purchase! Enjoy working with my products!
