

Free Design Resources

YOUR DESIGN

Open 'YOUR DESIGN' folder and you'll see 3 layers there. Double-click on layer thumbnail whichever from those 3 layers, it will open the new document tab. Paste your design inside the tab, save and close that tab.

TEXTURES

You can choose the textures by simply show/hide icon between layers 'No.1' and 'No.2'. If you want to move the texture, click on the masking box of the texture's layer you've selected, then move wherever you want to get the effect that you need.

You can also set amount of edge that cover the texture. Double click on Inner shadow filter at 'edge' layer, then set the Choke and Size section until you happy with the result.

COLOR

You also able to change your design color and background color by double-clicking on 'design color' or 'bg color' layer thumbnail.
