

Free Design Resources

1. Open your photo with Adobe Photoshop
2. In Photoshop, go to **Window > Actions**. Then click list icon on the top right corner at Actions Panel and click on **Load Actions**; choose the **WaterColor.atn**.
3. Select Background Layer (your photo), go to Actions Panel, click on the small arrow on the *WaterColor* folder, select *WaterColor Effect* action then click **Play Selection** icon at the bottom of the panel, wait..
4. The result should come up with a folder called '*WaterColor Effect*'. It's already done and enjoy!
