

WANT MORE CHRISTMAS MOCKUPS AND TO SAVE 50%?

Check out the full version: <https://crmrkt.com/yz0obW>

Hey! Thanks for downloading. I'm going to tell you how to use this mock-up. It's dead simple, so you can create a presentation of your work in seconds. Let's go!

How to place your design into the mock-up

1. Open the PSD file in Photoshop.
2. Find the "Your Design Here" layer in the Layers palette. If you don't see it, open the folder with item you need.
3. Double click on the thumbnail of "Your Design Here" layer. Photoshop will open a new document in a new window.
4. Insert your design into and click on File/Save or Ctrl+S (for PC) or Cmd+S (for Mac).

Now your image is placed into the mock-up.
