# Square Bag Mockup

by GraphicPear.com

How to Add Your Design ?

After your purchase & download this graphic, you will find a Photoshop .psd file which contain all your mockups. Once you open the photoshop file, you will find the following layers.
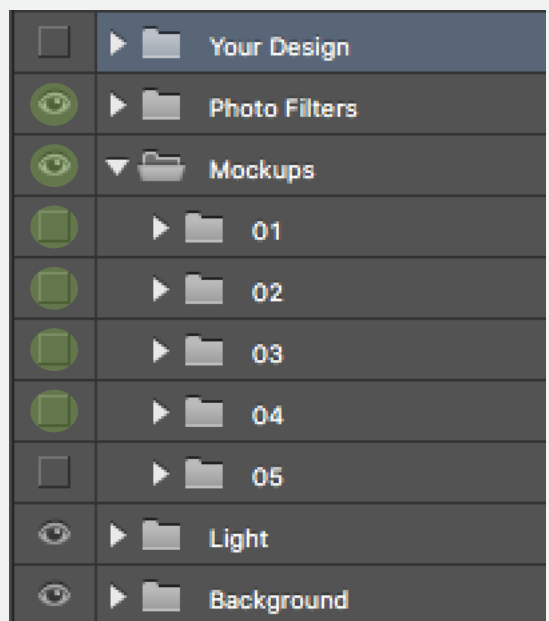

To add your design, go to the first group layer "Your Design" and expand its content by ticking the arrow next to it as shown in the screenshot.
Under this layer, you will find all your smart object layers you will need to customize the mockup. Right click on each layer then click "edit contents", a new window will open, paste your design, color or texture in this window and save the file. Now go back to your main file, you will find that the design was updated.
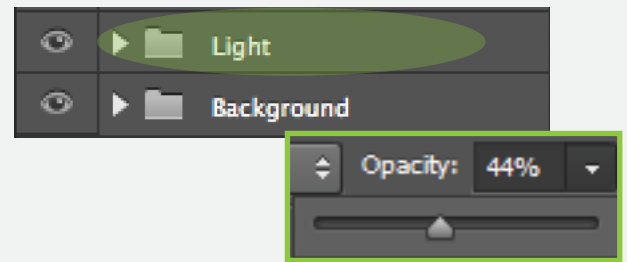

How to show / hide mockups

Simply go to the group layer " Mockups " & expand its content. You will find the all mockups underneath. Hide / show each layer to make the mockup visible or not.

How to increase / decrease light intensity ?

To increase or decrease light intensity, go to the "Light" group layer. Increase the opacity of this layer for darker lights or decrease it for lighter lights.

Each Mockup Settings ?

Each mockup has a number of editable variables that you can easily control.
- Top Light (Light reflection on top of your mockup)
- Top Shadows (Shadows on your mockup surface)
- Ground Shadows (Shadows under your mockup)

To increase / decrease the intensity of each of these variable go to its group layer then edit its opacity as shown in the screen shot below.
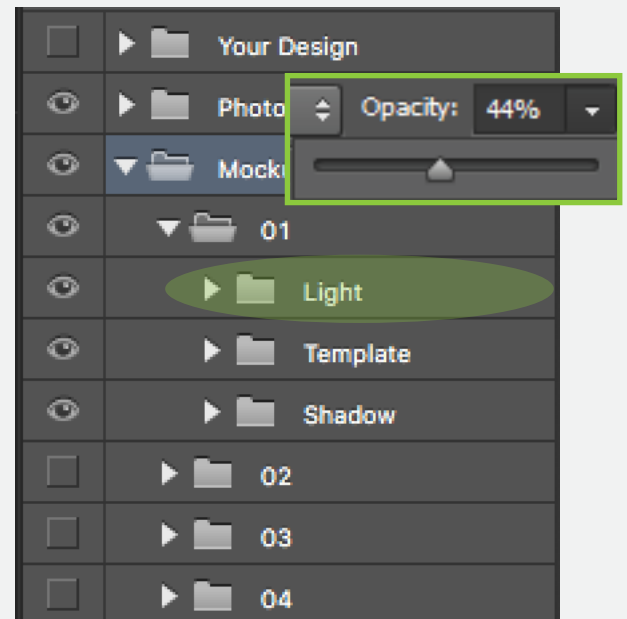

Photo Filters ?

To add a photo filter, go to the "Photo Filters" group layer and expand end. Inside this layer you will find a number of layers each represent a photo filter. To activate a filter, just make the layer visible.
